ARROYO MATÍAS HERNÁN
Front-end Developer

Córdoba, Argentina • matiashernan.dev@gmail.com • matiashernanarroyo.com.ar • www.linkedin.com/in/mha5

+2 years of experience as a developer, adaptable to team needs and committed to business goals. Detail-oriented in problem-solving, my goal is to positively influence the people around me.

PROFESSIONAL EXPERIENCE

VN GLOBAL   **Jan 2021 – Present**

Application Analyst

- Developed and designed high-quality interfaces using React and Figma, implementing a responsive design to adapt to different devices. Created components and styles following good practices with scalable code, taking into account usability and accessibility standards to ensure an optimal user experience.

- Expanded my skill set by taking on a Full-stack role, which allowed me to complement my Front-end development skills with Back-end development. This resulted in an increase in my capabilities and contributions to the company.

- Managed and retrieved data efficiently by designing, developing and maintaining several APIs using Node, SQL Server and Internet Information Services, allowing for proper integration with third-party applications.

- Automated the legal documentation submission system using Apps Script, optimizing workflow and reducing the required time by 90%.

- Led and mentored the Logistics team to control, track and assign computer equipment to more than 5000 collaborators using the Odoo business management system.
